

Press Release

Munich, February 14, 2011

Mummert & Company exclusively advised the shareholders of chemagen Biopolymer-Technologie AG on the sale to PerkinElmer, Inc.

Mummert & Company, an international and independent Corporate Finance advisor based in Munich, exclusively advised the shareholders of chemagen Biopolymer-Technologie AG on the sale to PerkinElmer, Inc. Effective immediately, chemagen is a wholly-owned subsidiary of PerkinElmer and will operate within PerkinElmer's Emerging Diagnostics Business Entity.

chemagen offers magnetic bead based products for both research and diagnostics in academic, pharmaceutical, medical companies, commercial clinical labs and in public health institutions. The company is a key player in the field of automated nucleic acid isolation. The purification of DNA, RNA, or viral DNA/RNA is facilitated through chemagen's proprietary M-PVA Magnetic Bead technology. chemagen's high performance instrument is the chemagic MSM I. It enables the automated separation of different substances from sample volumes between 10 µl and 10 ml.

The addition of chemagen to PerkinElmer's portfolio will provide the Company with a strongly complementary technology platform to address molecular diagnostics. The robust hardware and reagent capabilities brought by chemagen include a total solution in nucleic acid sample preparation, with automation-

enabling features that can power high throughput applications in research, screening, and diagnostics.

Harald Maehrle, Managing Partner of Mummert & Company, commented: "In PerkinElmer we found the ideal strategic partner for chemagen: This acquisition enables PerkinElmer to enhance its molecular diagnostics assays. At the same time the global distribution network of PerkinElmer offers chemagen enormous growth opportunities."
